Re: Request to Reduce Time for Responses of SCE&G to
Interrogatories or Requests for Discovery concerning Docket #
2008-196-E, The Combined Application of South Carolina Electric
and Gas Company for a Certificate of Environmental
Compatibility and Public Convenience and Necessity for a Base
Load Review Order for the Construction and Operation of a
Nuclear Facility in Jenkinsville, South Carolina

Dear Mr. Terreni,

Because the time for preparation for the hearing on actual site clearing has been very much shortened, I request that, on behalf of myself and other parties of record, that SCE&G be required by the PSC to respond to interrogatories and discovery requests about site clearing in six (6) days from the September 3 deadline rather than the regulatory 20 days. If SCE&G were to take the full twenty days to respond, the site clearing hearing on September 10 will have been concluded before the information is shared.

Sincerely,

A handwritten signature in cursive script that reads "Pamela Greenlaw".

Pamela Greenlaw
